## APRIL 2005 PRODUCT REVIEW SIMPLE SADDLE RACK and TRASH CAN

Now that it is spring time and everyone is going on trail rides....I was looking for a "thing" to hang my bareback pad up with . I found a "Simple Saddle Rack" that is perfect. It hangs anywhere, on a tree, post or trailer side. Easy to use and works to keep your saddle out of the way.

It is lightweight and keeps it clear of the ground and convenient. Very inexpensive too, only 13.95!

You can get it at The Australian Connection <http://www.theaustralianconnection.us>.

They also carry a POP UP manure can or trash can that is easy to transport and will clean up a whole camp area! Easy to fill and they come in 2 sizes...one for trash and one for hay/manure. They close to a flat surface and secure with Velcro....
